

### Tile Reflectance Values.

Reflectance values have been estimated by comparison against colours on the BS 5252 Colour card and calculating Reflectance from the corresponding Munsell value according to the formula provided in this standard.

Note that values for chipped tiles are very approximate due to blends of chip used and use of patches on some versions.

<b><u>Colour Name</u></b> <b>- Satin</b>	<b><u>Reflectance</u></b> <b>Value</b>	<b><u>Colour Name</u></b> <b>- Textured</b>	<b><u>Reflectance</u></b> <b>Value</b>
Chalk	64	Ashwood	12
