

# VENTS THAT PERFECTLY MATCH YOUR ROOF.

Introducing the roof-venting system that not only matches the colour and finish of your Gerard roof, but saves on plumbing costs too. Your roofer can install the vents as part of the roof which means your plumber only has to connect from the inside. There's no need to add flashings and pipes that could compromise weathertightness.

# TWO VENTS THAT SUIT MOST ROOFING SITUATIONS.

## FREE-FLOW PORT

A low-profile vent intended to cap off general extraction systems from kitchens, bathrooms and laundries; with a free vent area of 20,000mm<sup>2</sup> it's also ideal for airflow and heat circulation in roof cavities.

<b>Ducting</b>	Multi adapter suitable for use with Ø 150/ 130/ 125/ 110/ 100mm
----------------	---

<b>Size</b>	Fits matched Gerard profile
-------------	-----------------------------

## SANITARY PORT

This accessory is primarily intended to vent sewage systems, but can also be used for general air/moisture extraction from kitchens, bathrooms and laundries – anywhere that fits 100mm ducting.

<b>Ducting</b>	100mm
----------------	-------

<b>Size</b>	Fits matched Gerard profile
